

- Marrow stimulating agents;
- Immunosuppressive agents; or
- Bone marrow transplantation.

The diagnosis and suggested line of treatment must be confirmed by a Haematologist acceptable to the Company using relevant laboratory investigations, including bone-marrow biopsy. Two out of the following three values should be present:

- Absolute neutrophil count of 500 per cubic millimetre or less;
- Absolute erythrocyte count of 20 000 per cubic millimetre or less; and
- Platelet count of 20 000 per cubic millimetre or less.

Temporary or reversible aplastic anaemia is excluded.

1.1.24. Medullary Cystic Kidney Disease

Medullary Cystic Kidney Disease where the following criteria are met:

- The presence in the kidney of multiple cysts in the renal medulla accompanied by the presence of tubular atrophy and interstitial fibrosis;
- Clinical manifestations of anaemia, polyuria, and progressive deterioration in kidney function; and
- The Diagnosis of Medullary Cystic Disease is confirmed by renal biopsy.

Isolated or benign kidney cysts are specifically excluded from this benefit.

1.1.25. Parkinson's Disease

The unequivocal diagnosis of primary idiopathic Parkinson's disease (all other forms of Parkinsonism are excluded) made by a consultant neurologist. This diagnosis must be supported by all of the following conditions:

- The disease cannot be controlled with medication; and
- Objective signs of progressive impairment; and
- There is an inability of the Life assured to perform (whether aided or unaided) at least 3 of the following six (6) "Activities of Daily Living" for a continuous period of at least 6 months.

The Activities of Daily Living are:

- Washing: the ability to wash in the bath or shower (including getting into and out of the bath or shower) or wash satisfactorily by other means;
- Dressing: the ability to put on, take off, secure and unfasten all garments and, as appropriate, any braces, artificial limbs or other surgical appliances;
- Transferring: the ability to move from a bed to an upright chair or wheelchair and vice versa; Mobility: the ability to move indoors from room to room on level surfaces;
- Toileting: the ability to use the lavatory or otherwise manage bowel and bladder functions so as to maintain a satisfactory level of personal hygiene;
- Feeding: the ability to feed oneself once food has been prepared and made available. Drug-induced or toxic causes of Parkinsonism are excluded.

1.1.26. Systemic Lupus Erythematosus (SLE) with Lupus Nephritis

A multi-system, multifactorial, autoimmune disease characterized by the development of auto-antibodies directed against various self-antigens. In respect of this Contract, Systemic Lupus Erythematosus (SLE) will be restricted to those forms of systemic lupus erythematosus which involve the kidneys (Class III to Class V Lupus Nephritis, established by renal biopsy, and in accordance with the WHO Classification). The final diagnosis must be confirmed by a certified doctor specializing in Rheumatology and Immunology. There must be positive antinuclear antibody test.

Other forms, discoid lupus, and those forms with only haematological and joint involvement will be specifically excluded. WHO Classification of Lupus Nephritis:

- Class I: Minimal change Lupus Glomerulonephritis – Negative, normal urine.
- Class II: Mesangial Lupus Glomerulonephritis – Moderate Proteinuria, active sediment
- Class III: Focal Segmental Proliferative Lupus Glomerulonephritis – Proteinuria, active sediment
- Class IV: Diffuse Proliferative Lupus Glomerulonephritis – Acute nephritis with active sediment and / or nephritic syndrome.
- Class V: Membranous Lupus Glomerulonephritis – Nephrotic Syndrome or severe proteinuria.

1.1.27. **Apallic Syndrome**

Universal necrosis of the brain cortex, with the brain stem remaining intact. Diagnosis must be definitely confirmed by a Registered Medical practitioner who is also a neurologist holding such an appointment at an approved hospital. This condition must be documented for at least one (1) month.

1.1.28. **Major Surgery of Aorta**

The actual undergoing of surgery for a disease or injury of the aorta needing excision and surgical replacement of the diseased part of the aorta with a graft.

The term “aorta” means the thoracic and abdominal aorta but not its branches

Surgery performed using only minimally invasive or intra-arterial techniques are excluded.

1.1.29. **Brain Surgery**

The actual undergoing of surgery to the brain under general anaesthesia during which a craniotomy with removal of bone flap to access the brain is performed. The following are excluded:

- Burr hole procedures, transphenoidal procedures and other minimally invasive procedures such as irradiation by gamma knife or endovascular embolizations, thrombolysis and stereotactic biopsy
- Brain surgery as a result of an accident

1.1.30. **Fulminant Viral Hepatitis**

A submassive to massive necrosis of the liver by the Hepatitis virus, leading precipitously to liver failure. This diagnosis must be supported by all of the following:

- Rapid decreasing of liver size as confirmed by abdominal ultrasound; and
- Necrosis involving entire lobules, leaving only a collapsed reticular framework (histological evidence is required); and
- Rapid deterioration of liver function tests; and
- Deepening jaundice; and
- Hepatic encephalopathy.

Hepatitis B infection carrier alone does not meet the diagnostic criteria.

This excludes Fulminant Viral Hepatitis caused by alcohol, toxic substance or drug.

1.1.31. **Cardiomyopathy**

An impaired function of the heart muscle, unequivocally diagnosed as Cardiomyopathy by a Registered Medical Practitioner who is a cardiologist, and which results in permanent physical impairment to the degree of New York Heart Association classification Class IV, or its equivalent for atleast six (6) months, based on the following classification criteria:

Class IV - Inability to carry out any activity without discomfort. Symptoms of congestive cardiac failure are present even at rest. With any increase in physical activity, discomfort will be experienced. The Diagnosis of Cardiomyopathy has to be supported by echographic findings of compromised ventricular performance.

Irrespective of the above, Cardiomyopathy directly related to alcohol or drug abuse is excluded.

1.1.32. **Muscular dystrophy**

A group of hereditary degenerative diseases of muscle characterized by weakness and atrophy of muscle based on three (3) out of four (4) of the following conditions:

- Family history of other affected individuals;
- Clinical presentation including absence of sensory disturbance, normal cerebro- spinal fluid and mild tendon reflex reduction; Characteristic electromyogram; or
- Clinical suspicion confirmed by muscle biopsy.

The diagnosis of muscular dystrophy must be unequivocal and made by a consultant neurologist.

The condition must result in the inability of the Life Assured to perform (whether aided or unaided) at least three (3) of the six (6) ‘Activities of Daily Living’ as defined, for a continuous period of at least six (6) months.

Activities of Daily Living are defined as:

- Washing: the ability to wash in the bath or shower (including getting into and out of the bath or shower) or wash satisfactorily by other means;
- Dressing: the ability to put on, take off, secure and unfasten all garments and, as appropriate, any braces, artificial limbs or other surgical appliances;
- Transferring: the ability to move from a bed to an upright chair or wheelchair and vice versa;
- Mobility: the ability to move indoors from room to room on level surfaces;
- Toileting: the ability to use the lavatory or otherwise manage bowel and bladder functions so as to maintain a satisfactory level of personal hygiene;

- Feeding: the ability to feed oneself once food has been prepared and made available.

1.1.33. **Poliomyelitis**

The occurrence of Poliomyelitis where the following conditions are met:

- Poliovirus is identified as the cause and is proved by Stool Analysis,
- Paralysis of the limb muscles or respiratory muscles must be present and persist for at least 3 months.

The diagnosis of Poliomyelitis must be confirmed by a Registered Medical Practitioner who is a neurologist.

1.1.34. **Pneumonectomy**

The undergoing of surgery on the advice of a consultant medical specialist to remove an entire lung for any physical injury or disease.

1.1.35. **Severe Rheumatoid Arthritis**

The Severe Rheumatoid Arthritis with all of the following factors:

- Is in accordance with the criteria on Rheumatoid Arthritis of the American College of Rheumatology and has been diagnosed by the Rheumatologist.
- At least 3 joints are damaged or deformed such as finger joint, wrist, elbow, knee joint, hip joint, ankles, cervical spine or feet toe joint as confirmed by clinical and radiological evidence and cannot perform at least 3 types of daily routines permanently for at least 180 days.

1.1.36. **Progressive Scleroderma**

A systemic collagen-vascular disease causing progressive diffuse fibrosis in the skin, blood vessels and visceral organs. This diagnosis must be unequivocally supported by biopsy and serological evidence and the disorder must have reached systemic proportions to involve the heart, lungs or kidneys.

The following conditions are excluded:

- Localised scleroderma (linear scleroderma or morphea);
- Eosinophilic fascitis; and
- CREST syndrome.

1.2. **Exclusions for Critical Illness Benefit**

Apart from the disease specific exclusions given along with definitions of diseases above, no benefit will be payable if the critical illness is caused or aggravated directly or indirectly by any of the following:

- Diagnosis of any of the listed critical illness and/or hospitalization and/or treatment (availed or advised) within 90 days of the risk commencement date or reinstatement date whichever is later.
- Any Pre-existing disease, that is any condition, ailment, injury or disease:
 - a) That is/are diagnosed by a physician within 36 months prior to the date of Commencement of the policy issued by the insurer or
 - b) For which medical advice or treatment was recommended by, or received from, a physician within 48 months prior to the effective date of the policy issued by the insurer or its reinstatement.
- Any illness due to external congenital defect or disease which has manifested or was diagnosed before the Insured attains age 18. Where, external congenital defect or disease is a congenital anomaly which is in the visible and accessible parts of the body.
- Suicide or attempted suicide or intentional self-inflicted injury, by the life insured, whether sane or not at that time.
- Life assured being under the influence of drugs, alcohol, narcotics or psychotropic substance, not prescribed by a Registered Medical Practitioner
- War, invasion, hostilities (whether war is declared or not), civil war, rebellion, terrorist activity, revolution or taking part in a riot or civil commotion, strikes or industrial action.
- Participation by the life assured in a criminal or unlawful act with criminal intent or committing any breach of law including involvement in any fight or affray.
- Treatment for injury or illness caused by avocations / activities such as hunting, mountaineering, steeple-chasing, professional sports, racing of any kind, scuba diving, aerial sports, activities such as hand-gliding, ballooning, deliberate exposure to exceptional danger.
- Any underwater or subterranean operation or activity. Racing of any kind other than on foot
- Existence of any sexually Transmitted Disease (STD)
- Failure to seek or follow medical advice, the Life assured has delayed medical treatment in order to circumvent the waiting period or other conditions and restriction applying to this policy.
- Nuclear reaction, Biological, radioactive or chemical contamination due to nuclear accident.

- Any treatment of a donor for the replacement of an organ;
- Diagnosis and treatment outside India.

1.3. Waiting Period for Critical Illness Benefit

- No benefit shall be paid in case the Life Assured is diagnosed with any of the applicable listed Critical Illnesses within 90 days from the date of commencement or revival of cover, whichever occurs later except in cases where the Critical Illness occurs as a result of an accident (such as Major Head Trauma).
- All of the evidence needed to make a claims assessment in accordance with the definitions above, is made available before the death of the life assured.
- The insured has to survive 30 days after the 'complete diagnosis' of the defined critical illness condition being claimed and subject to fulfilment of policy definitions. Failure to do so entitles the Insurance Company to refuse any claim under this cover.
- No payment under Critical Illness benefit would be made if the diagnosis of the condition is made after the death of the life insured. The time of diagnosis is the point in time at which the insured first satisfied all of the requirements of the definition AND all of the test results and medical reports required to support the diagnosis in accordance with the definition are available in a form suitable for sending to the insurer.

2. Accidental Death Benefit (ADB) Option

2.1. Definitions

Accident is a sudden, unforeseen and involuntary event caused by external, visible and violent means. Accidental Death means death by or due to a bodily injury caused by an Accident, independent of all other causes of death. Accidental Death must be caused within 180 days of any bodily injury.

“Accidental death” shall mean death:

- which is caused by bodily injury resulting from an accident and
- which occurs due to the said bodily injury solely, directly and independently of any other causes and
- which occurs within 180 days of the occurrence of such accident but before the expiry of the cover and
- is not a result from any of the causes listed in the exclusions for accidental death benefit.

"Bodily Injury" means Injury must be evidenced by external signs such as contusion, bruise and wound except in cases of drowning and internal injury.

“Injury” means accidental physical bodily harm excluding any Illness, solely and directly caused by an external, violent, visible and evident means which is verified and certified by a Medical Practitioner.

“Medical Practitioner” means a person who holds a valid registration from the medical council of any State of India or Medical Council of India or any other such body or Council for Indian Medicine or for homeopathy set up by the Government of India or by a State Government and is thereby entitled to practice medicine within its jurisdiction and is acting within the scope and jurisdiction of his license, provided such Medical Practitioner is not the Life Insured covered under this Policy or the Policyholder or is not a spouse, lineal relative of the Life Insured and/or the Policyholder or a Medical Practitioner employed by the Policyholder/Life Insured.

2.2. Exclusions for Accidental Death benefit

Additional Accidental Death benefit will not be payable, if death is caused directly or in-directly from any of the following:

- If the death occurs after 180 days from the date of the accident
- Injury occurred before the risk commencement date
- Suicide or attempted suicide or intentional self-inflicted injury, by the life insured, whether sane or not at that time.
- Life assured being under the influence of drugs, alcohol, narcotics or psychotropic substance, not prescribed by a Registered Medical Practitioner.
- War, invasion, hostilities (whether war is declared or not), civil war, rebellion, terrorist activity, revolution or taking part in a riot or civil commotion, strike or industrial action.

- Participation by the life assured in a criminal or unlawful act with criminal intent or committing any breach of law including involvement in any fight or affray.
- Treatment for injury or illness caused by avocations / activities such as hunting, mountaineering, steeple-chasing, professional sports, racing of any kind, scuba diving, aerial sports, activities such as hand-gliding, ballooning, deliberate exposure to exceptional danger.
- Any underwater or subterranean operation or activity. Racing of any kind other than on foot
- Services in any military, air force, naval, police, paramilitary or similar organisation including service in the armed forces in time of declared or undeclared war or while under orders for warlike operations or restoration of public order,
- Participation by the insured person in any flying activity other than as a bona fide passenger (whether paying or not), in a licensed aircraft provided the life insured does not, at the time, have any duty on board such aircraft.
- Violation or attempted violation of the law or resistance to arrest.
- Nuclear reaction, Radioactive or chemical contamination due to nuclear accident.
